

Deliverables Worksheet: Assignment 2b (Business Site Part 2)

Looked up references from https://www.w3schools.com/html/html_links.asp

Also inspected websites of phinista.com , futagoudon, yume wa arukara

Used lessons on making rounded borders on youtube and referenced color schemes

Got information from <https://www.harvardsquare.com/venue/les/>

Got images from <https://www.yelp.com/biz/les-vietnamese-restaurant-cambridge-3>

URL for site <https://elenaj.sgedu.site/hw2/index.html>

HTML/CSS files uploaded to Canvas (use a zip file to combine them)

Design document from part 1 uploaded

The following requirements were met:

At least 3 pages: a home page, a contact page and one other page.

At least 10 CSS style rules

A form - note which page Contact

A table or a list - note which page(s) Lists in every footer page

Links with a hover effect – where? All links have a hover effect

An external stylesheet

An internal stylesheet on one of the pages - which page? Main

At least two images – one must be a background image:

- note which page(s) Home page is background, menu has 2 pics, and about has a pic too

At least two fixed page elements – what are they The nav bar and the footer

Responsive and mobile-friendly Yes because I adjusted the @media so it's flexible

Questions:

What was the most satisfying part of this assignment?

- The most satisfying part of this assignment was seeing everything come together after fixing all the bugs. I learned so much new things that we didn't necessarily go over in class and really was able to make the most out of the internet in using color palettes and cool customizations of the websites.

What was the most challenging part of this assignment?

- Honestly the most challenging part of this assignment was the amount of time it took to figure everything out. Sometimes the pages broke on me and I had no idea how to fix them, the most recent bug being the unicodes that didn't work so I had to fix that on siteground.
