What was most satisfying?

- Figuring out the extra credit was most satisfying, got a lot more usage with tenrary operators and used a lot of CSS hacks from previous assignments and online
- Had a good time using online resources to help me style and organize project, even though style kinda got messed up at the end
- Learned a lot about PHP, textareas, form submissions, logging

How could PHP enhance your midterm?

- We can have logging for the users favorite movies for example
- The PHP databases are really useful and theres a lot that can be done
